© DRFounded in 1253, the University of the Sorbonne was at the centre of the Latin Quarter's intellectual activity from the Middle Ages until 1968, when it was occupied by students and stormed by the riot police. The authorities then split the University of Paris into safer outposts, but the Sorbonne still houses the Faculté des Lettres. Rebuilt by Richelieu and reorganised by Napoleon, the present buildings date from the late 1800s, and have a labyrinth of classrooms and lecture theatres, as well as an observatory tower. The elegant dome of the 17th-century chapel dominates place de la Sorbonne; Cardinal Richelieu is buried inside. It's only open to the public for exhibitions or concerts. Without fanfare, this is a bar that welcomes the entire LGBTQ+ family in the heart of the Raval, the historic center of Barcelona. Its friendly and fun atmosphere has led them to celebrate their tenth anniversary in 2021. They offer good food, well-drawn beer, a pleasant terrace and, more than anything else, very good vibes for the entire community. (Pro tip: You can order anything you want of the superb Las Fernández menu and eat it on the La Casa de la Pradera terrace. They're good neighbors!) This is the temple where Stela 1 was found, an artifact now on display in the British Museum. Based on the stela's inscriptions, it is believed it was brought over to Tulum from a nearby settlement in Tankah during the Classic period. Part of the Tulum Ruins.
